## Improving our Response to Adolescent and Teen Victims of Sexual Assault and Sexual Exploitation

Laurel Edinburgh, MSN, CNP  
Midwest Children's Resource Center  
St Paul, MN

**We encounter youth who have experienced sexual assault and/or who may be at risk for sexual exploitation. Learn how to identify these youth and the services available for them.**

**Words matter. Laurel will discuss ways to promote resiliency in youth during our interactions and to build on their strengths. She will discuss the benefits of trauma informed approaches and the importance of follow up that leads to lifetime health benefits.**

**Come and learn from a leader in the field and to join in the discussion.**

Regions Hospital (640 Jackson St, St Paul, MN 55101), Lindell Room, located in the Emergency Medicine Offices on the 2<sup>nd</sup> Floor, around the corner from the Overlook Café. Follow signs posted.
