Unity Hospital
SANE Program Manager

SANE Program

This 40 hour, 5 day course is designed to give the nurse basic knowledge of the role of the SANE nurse.

Program Speakers

Many agencies intersect to care for the victim of sexual assault. The SANE course emphasizes this multidisciplinary approach and brings many experts from many disciplines together to discuss their role with respect to the victim of sexual assault. In addition to the information presented by the course coordinators and other SANE program personnel, this 40 hour course will include speakers from prosecution, law enforcement, advocacy, and the BCA. This breadth of speakers is intended to give the RN a clear concept of the many facets of care provided to the victim of sexual assault and how the SANE role will intersect with each of these agencies and disciplines. The advantage of offering speakers from different SANE programs and different counties is to give a broader view of treatment for the victim of sexual assault that is not specific to just one program.

The 40-hour training follows the Education Guidelines of the IAFN and will provide the didactic training that will allow the nurse to take the SANE-A certification exam if the other requirements are met. This course does not offer hands on learning or skills stations.

Course Registration
