**Prerequisite:** The nurse must have attended a 40 hour SANE course prior to attending the Clinical Skills Lab. This could either be a SANE-A course or SANE-P course, although the skills lab focuses on the adult and adolescent patient.

This 16 hour Clinical Skills Lab will provide the nurse hands on Sexual Assault Examination training with live models. The Skills lab includes training and practice on pelvic speculum insertion, interviewing, evidence collection and handling, and photography. The Skills Lab will provide training and practice with developing a plan of care, discharge/safety planning, risk assessment for STP's, pregnancy, and HIV with discussions regarding options for prophylaxis of each. Anoscopy will also be demonstrated.

This Clinical Skills Lab is designed to provide clinical practice to nurses who are new SANEs or SANEs who have not had the opportunity to perform many adult/adolescent exams. The Skills Lab will increase the nurse's skill and confidence with performing medical forensic examination of the sexual assault patient.
