

Advanced Clinical Skills and Case Practice

A RE Lab Experience

These are unique opportunity to develop your skills in caring for a patient who has experienced sexual violence and to join our growing network of [RE Lab SANEs](#). Your level of experience will be accommodated in our tailored teaching and small group processes. These events are currently **free** for RE Lab members. Travel and lodging are eligible for reimbursement based on distance traveled.

In these experiences, you will: you will:

- Participate in a workshop on trauma-informed communication/interviewing and on wound documentation/photography, which includes presentations and activities
- Complete a two-phase simulation on 1) trauma-informed interview and 2) head-to-toe assessment with wound documentation and photography, each of which will be followed by group debriefs
- Learn from expert sexual assault nurse examiners
- Gain confidence and competence caring for a patient presenting with a recent experience of sexual violence
- Learn alongside colleagues, taking time to talk through challenges and to practice these skills

Where: University of Minnesota Minneapolis campus

When: 9:00am – 5:00pm (dates listed to the left)

Prerequisites for Participation: Completion of a 40-hour didactic SANE-A course and a SANE-A clinical skills lab.

Not a RE Lab member? Apply at bit.ly/RElabmembership.
