

Policies for School and Hospital Personnel

Any person who has contact with a child through the performance of services of a hospital or similar institution or of any public or private school, whether accredited or unaccredited, shall immediately notify the person in charge of the facility or their designee of suspected child abuse. That person shall then report the information in accordance with the provisions of *SDCL 26-8A-8*

Every hospital or similar institution and every school district is required to have a written policy on reporting child abuse and neglect. Hospitals and similar institutions are also required to have a written policy regarding the submission of copies of medical examinations, treatment and hospital records to the state's attorney. *SDCL 26-8A-6, 26-8A-7*

Policy for Clergy

Clergy are not mandatory reporters unless they fall within one of the categories listed in *SDCL 26-8A-3* (such as counselor, teacher or school official).

Clergy are not required to report child abuse that they learned of solely in the course of a conversation covered by the clergy-penitent privilege.

However, this privilege is waived when the person making the privileged communication voluntarily discloses the contents of the communication to a third party.

Liability for Reporting

Any person or party participating in good faith in making a report or submitting copies of medical examination, treatment or hospitalization records is immune from any liability, civil or criminal, that might otherwise be incurred or imposed, and has the same immunity for participation in any judicial proceeding resulting from the report.

Immunity extends in the same manner to those acting in the following ways as a result of a report of child abuse or neglect:

- Those requesting and taking photographs or X-rays;
- Child protection teams established by the Secretary of DSS;
- Public officials or employees involved in the investigation and treatment of child abuse or neglect or making a temporary placement of the child; or
- Any person who in good faith cooperates with a child protection team or DSS in investigation, placement or a treatment plan.

Immunity does not extend to any person alleged to have committed an act or acts of child abuse or neglect. *SDCL 26-8A-14*

Any person required to make a report involving an abused or neglected child, or who is required to report a child who has died as a result of child abuse and neglect but who knowingly and intentionally fails to do so, is guilty of a Class 1 misdemeanor. *SDCL 26-8A-3*
